

*In or Out... we make it Easy!®*

## Instructions

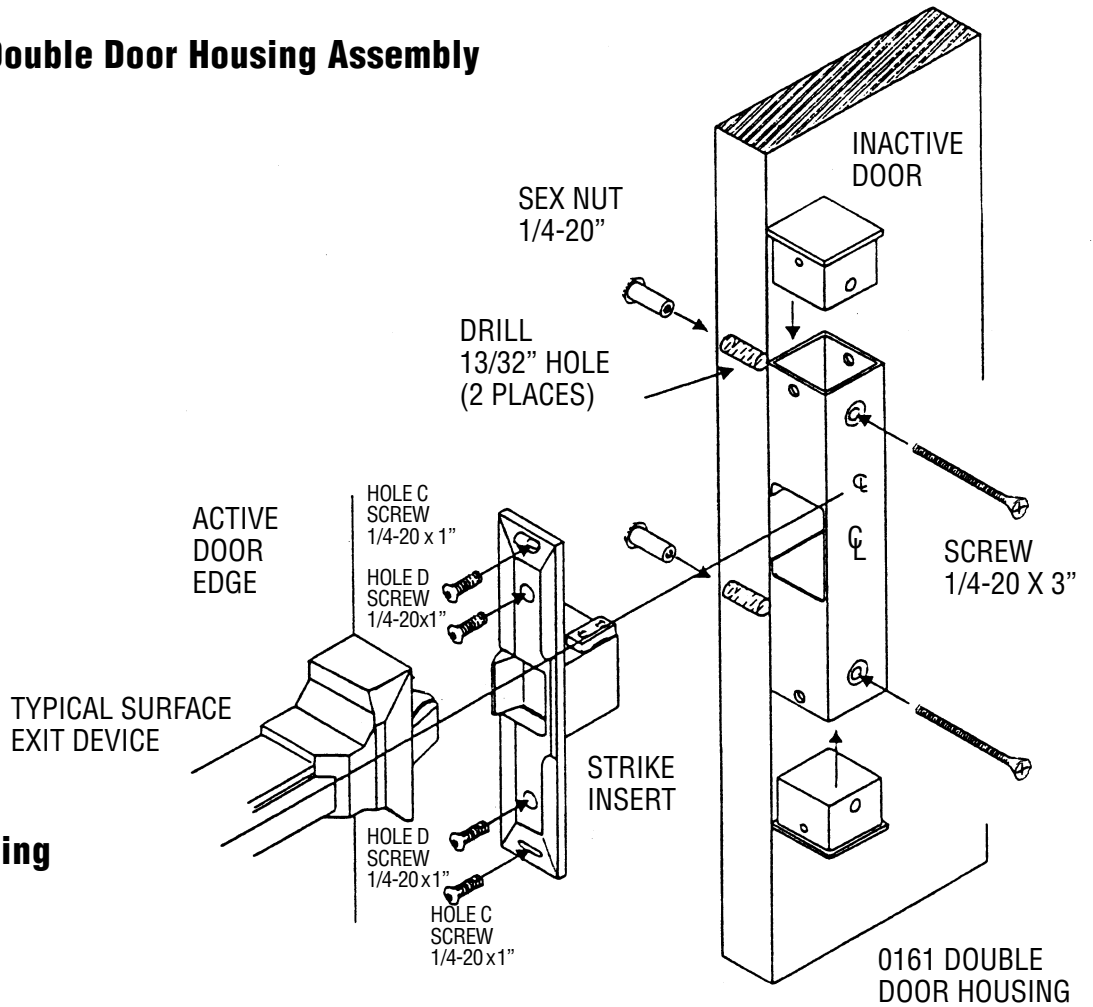

- 1) Mark center line (CL) of existing device latch from active door to inactive door.
- 2) Mark the mounting holes for the Double Door Housing (**DDH**) on the inactive door.
- 3) Drill two 13/32" (0.406") holes through inactive door.
- 4) Drill wire access hole into desired area of **DDH**. Pull two (2) wires through the access hole and connect to strike. (Polarity is not observed)
- 5) Temporarily mount **0161** strike to **DDH** through the slotted holes (Hole C) using 1" button head socket cap screws. (BHSCS)
- 6) Mount **DDH** to inactive door using the two (2) 1/4-20x3" screws and 1/4-20" Sex Nuts supplied.
- 7) Adjust electric strike insert horizontally (If necessary), until Pullman Latch engages when door is closed. (See Fig. 2 on **0161 installation instructions** if further horizontal insert adjustment is necessary)
- 8) Mark, drill and tap Hole D for 1/4-20x1" BHSCS provided to secure the final location.

MEASUREMENT	FRACTIONAL INCHES	DECIMAL INCHES	METRIC (mm)
